

URINARY INCONTINENCE IN WOMEN AND MEN

BROWNBAG LUNCH SERIES
NOON TO 1:00 P.M.
AT THE
LONDON CENTER ON AGING,
ROOM 200

MAY 20, 2009 (WEDNESDAY)

Presenter: Tomas Griebling, MD, MPH, Urology

Urinary incontinence is a very common problem in older adults. More than half of all older people will experience involuntary leakage of urine at some point in their life. We will discuss the common types and causes of urinary incontinence, and different surgical and non-surgical treatments that are available.
