

ETHICS & MEDICINE:

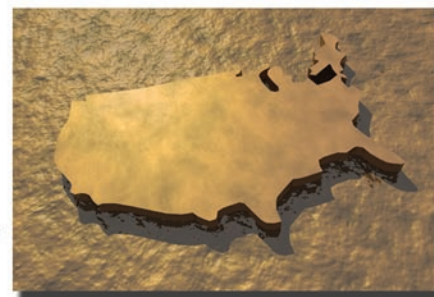

AN OPEN DISCUSSION BETWEEN YOU THE
COMMUNITY & A PANEL OF HEALTHCARE PROFESSIONALS

TOPIC FOR THIS SESSION: UNIVERSAL HEALTHCARE

11:30 A.M. FREE LUNCH
PROGRAM 12:00 TO 1:00 P.M.
LANDON CENTER ON AGING
ROOM 200

October 31, 2007

What do you think about universal health care? Is it a good thing for the citizens of the United States? How do you think the health care industry in this country would change with universal healthcare? Will everyone get the care they want or expect? Will there be long waiting lists for surgeries? Who do you think will or should decide who gets a procedure or treatment? Is universal health care successful in other countries, or do you think they have had problems with universal health care? Come to an ethical discussion about universal health care and share your opinions with others about it. In the richest country on earth should we to provide healthcare to those who cannot afford it and is universal healthcare the answer?

Please come to this open discussion between you, the community, and a panel of healthcare professionals with backgrounds in bioethics.

THEO AND ALFRED M. LANDON
CENTER ON AGING
