

Pain Management

NOON TO 2:00 P.M.

AT THE
LONDON CENTER ON AGING
ROOM 200

April 3, 2007

SPECIAL
EVENT

Presented by: Mary McDonald, MD, Geriatrician

Effective pain management in older adults is vital in order to allow them optimal functional and emotional health. Older adults suffer disproportionately from painful chronic conditions. Unfortunately, studies indicate that pain complaints in older adults are too often ignored or undertreated. This presentation will review 1) tools for recognizing pain in older adults and 2) recommended pain management regimens for pain symptoms.
