

DO YOU KNOW HOW TO STAY ONE STEP AHEAD?

OCTOBER IS NATIONAL COMPUTER SECURITY AWARENESS MONTH

...and the entire KU Med campus will be celebrating throughout the month with presentations, contests and other fun events. This year's focus is on providing you with the tools and knowledge to stay **"one step ahead"** of nasty hackers and scammers no matter where you are.

We hope you'll join us to:

- ◆ Find out how to secure your home computer
- ◆ Watch a live wireless hacking demonstration and learn how to secure your own wireless network
- ◆ Hear how to combat spam and recognize phishing and other online scams
- ◆ Learn how to protect yourself from identity theft and shop safely online
- ◆ ...and **enter to win an iPod** and lots of other great prizes!

Visit www2.kumc.edu/security for a detailed calendar of events, contests, prizes and other details.
