**‘Most Wired’ award reflects medical support – not gadgets**

For the second consecutive year, The University of Kansas Hospital has been named one of America’s 100 Most Wired hospitals.

The award, from the American Hospital Association's *Hospital & Health Networks* magazine, is not about data clouds, social media and the latest gadgets from Silicon Valley. The study instead analyzes the way hospitals use information technology to help physicians, nurses and others improve patient outcomes.

“It’s not a geek rating,” said Michael Nix, director of the hospital's Information Technology Services. “It’s not about the technology you have. It’s really about how the hospital uses technology to improve the treatment of patients.”

The award reflects medical support – not gadgets.

The PhysDoc rollout in May was one factor in the hospital’s Most Wired award. Another important measure is the hospital’s standardization of patient data between sites – continued on page 2

**Unit 53 chases excellence in ‘Amazing Race’**

Just like contestants on the TV show “The Amazing Race,” staff members on Unit 53 are pitting themselves against each other in a journey to improve patient care.

It’s called the Amazing Race to Unit Excellence. During the three-month game, four teams use clues to complete tasks and earn merit miles. So far, each team member has completed a self-directed study about the Practice Council and been invited to attend a council meeting.

Beyond racking up merit miles, the goal is to create and sustain measurable improvements in patient care. Each team includes nurses, support staff and a team leader from within the unit.

The game is part of the 16-month Clinical Scene Investigators project, funded by a Robert Wood Johnson Foundation grant. Each Unit 53 team works with a mentor investigator: Leah Dickter, RN, Unit 66; Amanda Gartner, RN, CICU/CTR; Akiko Kubo, RN, Department of Nursing; and Elisa Van Daalen, RN, Labor and Delivery.

Liz Carlton, RN, director of quality, safety and regulatory compliance, Department of Nursing, mentors the investigators. continued on page 4
The Department of Nursing will celebrate its Magnet Redesignation kick-off at an open house Monday, July 20. All employees at The University of Kansas Hospital are invited 6:30-9 a.m., 10 a.m.-noon, 2-4 p.m. or 6-8 p.m. The meetings are in the hospital’s Nursing Resource Center, 4467.

At the open house, a new Magnet “Component” model will be unveiled. When the hospital first pursued Magnet Designation from 2002-06, organizers followed “14 Forces of Magnetism.” In the new model, those 14 forces have been embedded in “5 Components of Magnetism.”

“It’s important that nurses and others understand and participate in the redesignation process,” said Suzanne Shaffer, RN, Department of Nursing assistant director. Staff at the open house will have an opportunity to sign up for a Component committee, become a Magnet Champion and share Magnet stories.

“Magnet designation is the highest honor for nursing excellence,” Shaffer said. “Magnet provides consumers with the ultimate benchmark to measure the quality of care they can expect.”

from the main campus to KU MedWest, for example, or from Radiology to a clinical lab.

Automation in patient rooms is vital as well. For instance, a reminder to check a patient’s central line in the first 48 hours is integrated into an automated checklist. The hospital’s comprehensive use of technology was a key factor in winning the award.

More than 1,300 hospitals vied for the honor; the hospital is the only one in Kansas and one of only two in the Kansas City area to make the top 100. Nix said the award reflects the hard work by the entire 157-person technology team that works for Chris Hansen, hospital chief information officer.

KUMC, Lawrence launch tech deal

While the hospital is winning Most Wired kudos, the University of Kansas Medical Center also is stepping up its information infrastructure.

KUMC and the KU-Lawrence campus on July 13 announced a three-year, $2.8 million contract with Oracle. The agreement – the first such intercampus deal – is projected to enable savings of nearly 90 percent in related hardware costs, reduce administrative management costs and provide enhanced operating efficiencies for database administrators on both campuses.

“A universitywide agreement such as this is an excellent example of what can be achieved when all parties truly work together,” said Barbara Atkinson, MD, KUMC executive vice chancellor and interim KU chancellor.

“KU may have more than one campus, but we all have the same mission of providing the best possible teaching and research,” she added. “I commend all who have played a part in improving the university’s technological resources and efficiency, which play no small role in helping reach our full potential.”

Wellness crusaders

Blue Cross Blue Shield of Kansas City has turned to two experts – Jennifer Klem, PhD (left), Breast Cancer Prevention Center, and Brian Weiford, MD, Cardiology – to discuss the importance of wellness. They were interviewed July 9 by former Channel 5 health reporter Anne Peterson. The interviews will be part of “Health ProSpective,” a video feature on the new Blue Cross Blue Shield website that rolls out next month.
Friday, July 17
NEUROLOGY/NEUROSURGERY
Grand Rounds: "Novel Therapies For Lysosomal Storage Disorders with Neurological Manifestations."
Majed Dasouki, MD, 6:45-9 a.m., Lied Auditorium.

CLINICAL ONCOLOGY Journal Club: 8:30-9:30 a.m., 3015 Sudler Auditorium.

MOVIE NIGHT at the Landon Center on Aging: Fly Me to the Moon, 6-8 p.m., 200 Landon Center. Information: Hallie Kates-Calloway, 8-0606.

Wednesday, July 22
BROWN BAG Lunch Series for Older Adults: “Prevention of Foodborne Illnesses and MRSA,” Biago Pagano, noon-1 p.m., 200 Landon Center. Reservations: Matt Chandler, 8-3094 or mchandler@kumc.edu.

HEAD AND NECK Cancer Support: Second and fourth Wednesdays, 4-5:30 p.m., Executive Conference Room 1, Westwood Campus. Information: 8-1227.

CENTRAL PLAINS Geriatric Education Center Seminar: “Ethical Decision-Making in Geriatrics: Ethics and Goals at End-of-Life in Long-Term Care,” Rosemary Flanigan, PhD, and Helen Emmott, RN, 4-7 p.m., 200 Landon Center on Aging. Register: coa.kumc.edu/cgec/upcomingprograms.htm.

Thursday, July 23
BIOMEDICAL INFORMATICS Seminar: “Translational Bioinformatics for Genome Medicine,” Jake Chen, PhD, noon-1 p.m., 8012 School of Nursing. Lunch provided for first 25 attendees.
LUNG CANCER Support Group: Second and fourth Thursdays, 5:30-6:30 p.m., Atrium Conference Room, Westwood Campus. Information: 8-1227.

Send calendar items to centerexpress@kumc.edu. Items must be received by noon on the Monday prior to publication.

Friday, July 24
NEUROLOGY/NEUROSURGERY
Grand Rounds: "Frontal Lobe Epilepsies," Srinivas Bandi, MD, 6:45-9 a.m., Lied Auditorium.

Race for the Cure deadline is July 26
The deadline is fast approaching to register for the Race for the Cure. Participants must sign up by Sunday, July 26, for the Aug. 9 race, which is a fundraiser for breast cancer research.

This year, four campus entities – The University of Kansas Hospital, the University of Kansas Medical Center, KU Endowment and The University of Kansas Cancer Center – will participate as The University of Kansas Cancer Center team and will sponsor the Survivor Pavilion at the race.

In addition to the event, employees are urged to wear pink on Tuesday, July 21, to show their support for the Race for the Cure and the cancer center’s Race for the Cure efforts.

The team hopes to recruit 400 walkers campuswide. The 5K and 1-mile activities start at 7:30 a.m. at Union Station, followed by a survivor recognition and parade at 9:15 a.m.

Register at komenkansascity.org. Registration starts at $20 online. You’ll receive a team shirt and Susan G. Komen shirt.

For information or to donate: Paula Baum at 8-1017, or Ally Moore, 5-5248.

State employees: Free health screenings
There’s still time to sign up for the 2009 free health screenings offered by the State of Kansas Employee Health Plan. Eligible employees who are enrolled in the health plan or who have waived coverage can participate, in addition to retirees, spouses and dependents (age 18 and over) who are enrolled in the state health plan.

Screenings at the University of Kansas Medical Center will be July 30 and Aug. 12 in the Stoland Lounge. There are other screening locations in the Kansas City area.

An important change: No walk-ins will be accepted this year. For information or to make an appointment online, go to khpa.ks.gov/healthquest/screenings.html. Or make an appointment by calling 888-275-1205, and select option 0.

Those who complete the screening and fill out an online assessment form will receive a $50 gift card, which is taxable. If you don’t want the card, you must opt out before you complete the assessment. To opt out: Julie Faust, julie.faust@khpa.ks.gov or 785-296-5624.

Jared Grantham, MD, University Distinguished Professor, Nephrology and Hypertension, has received the Jean Hamburger Award, considered the highest honor in the field of nephrology. The award recognizes outstanding research in nephrology with a clinical emphasis. He received it May 26 at the World Congress of Nephrology in Milan.

Grantham’s work has centered on understanding and treating polycystic kidney disease, which affects 600,000 people in the U.S. and more than 10 million worldwide. Considered by many to be the father of modern PKD research, he is a co-founder of the Polycystic Kidney Disease Foundation (PKDcare.org), headquartered in Kansas City.
Vehicles
2001 FORD EXPLORER Sport, approximately 120K, white, $2,000 OBO. 913-526-8172.

For Sale
COOGI SHORTS, black, boys size 24 months, new with tags, $50. 816-277-4527.

Unit 53 was selected as the pilot for several reasons. The unit is one of several not taking full advantage of its Practice Council. “Practice Councils provide the means for units to make meaningful change,” Dickter said. “The Amazing Race to Unit Excellence is symbolic of how Unit 53 and other units can learn to foster a Practice Council.”

A survey of the unit’s staff also identified a need for more communication within teams. “With this project, we hope to establish a toolkit so other units can learn how to make changes for more effective communication,” Dickter added.

However, she noted, it’s not about having an exact protocol for changing processes. “Every unit is different,” she said. “It’s rather about learning how to put processes in place – processes specific to one’s own unit – for making change.”

While Unit 53 staff members are more good-natured than their TV counterparts, they are still in the game to win. “All of our staff are showing their competitive spirit as we start the Amazing Race to Excellence,” said Danel Cupps, RN, Unit 53 nurse manager. “Everyone is focused on having their team win each leg of the race in a fun and enthusiastic way as we continue to grow as a unit.”
